

# Manufacturers

## Smart ERP Solutions for Manufacturers

Manufacturing the backbone of economic growth is facing challenges in productivity, planning and timely delivery. You need state of the art business tools to manage from your books to people to processes all in an integrated way. Jooji's solution for manufacture helps automate your processes and grow your business.

### Production

- Workorders/Job cards generated from Sales Orders
- Resource booking based on Jobcards
- Management Resource Planning ( MRP II)
- Job card tracking linked to Sales Order
- Job costing based on resource utilisation
- Step wise process definition for the job card and tracking

**Easy to Use** - Non accounting professional can use the system and create all the transactions while a senior accountant or manager can review, make changes if needed and approve the transactions.

### Inventory

- GRN/Material Issues/Material Transfers
- Support for Multiple Stores
- Bar code based tracking of critical materials
- Job card based issues of materials
- Store layout and inventory based on locations

### Sales

- Complete sales process from RFQ > Quotation > Sales Order > Sales Invoice
- Sales Order status tracking from production data
- Accounts receivables tracking at Customer Level and at individual Order level
- Credit Notes, Debit Notes and adjustments at Order Level

### Purchase

- Bill of Materials
- Materials requirement Planning (MRP)
- Complete Purchase Tracking based on BOM/MRP
- Complete purchase process RFQ > Quote > Purchase Order > Invoice > GRN
- Accounts Payable tracking Based on Vendor/Purchase Order/Sales Order

**Controlled Access** - The access to various transactions is very fine grained and can be controlled at each small transaction level for each user

**Real Time Reports** - Current status like cash position, pending payments, receivables due can be accessed by anyone in the company who has access with the click of a button

**Access From Anywhere** - Access your data from anywhere - from home, form hotels when you are on tour; Work need not wait because you are not in office.

**Multiple Locations** can be managed easily since everyone can share the same data.

### Reports

- All standard financial reports
- Analytic reports based on special attributes of the transactions.  
For example
  1. project wise materials purchased this month
  2. employee wise project wise entertainment expenses
- Accounts payable/Receivables based on Party/Purchase Order/Sales Order balancing at order or invoice level.
